

Assign Carriers to Freight Orders

Explanation	Screenshot
1. Choose <i>Edit Carrier Selection Settings</i> to review the settings that influence the carrier selection process.	
2. To review the carrier selection settings, choose <i>Continue</i> .	
3. In the carrier selection settings, it is defined (among other settings): • Whether transportation allocations are to be considered • Whether business shares are to be considered • Which strategy to be applied to	

Explanation	Screenshot
select a carrier: Cost or Priority How are the costs calculated (carrier cost origin)? To continue, enter the term carrier and confirm your entry by pressing the Enter key.	
4. There are several methods for selecting carriers. One option is to use the carrier selection app, which appears as the first choice when you enter "carrier" into the search bar. However, you'd like to take a different approach. Choose the <i>SAP</i> logo to navigate back to your home page.	

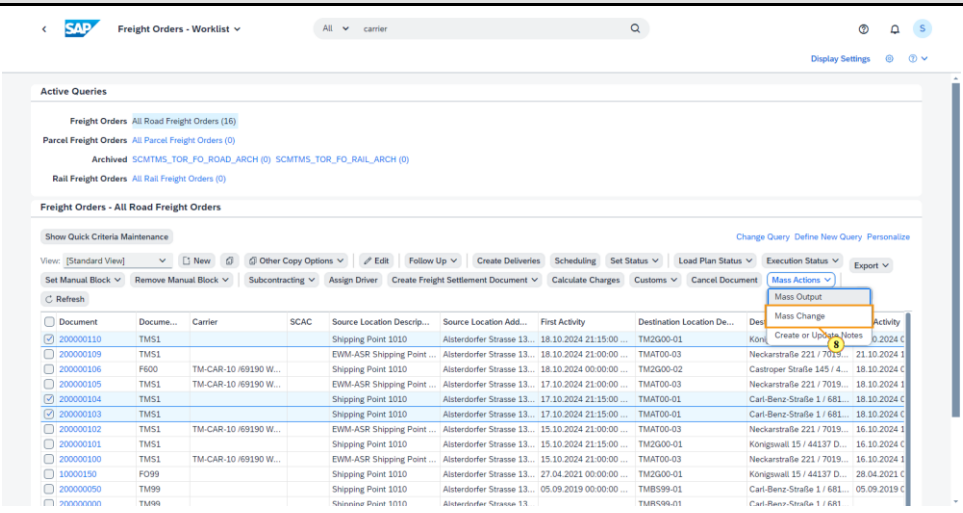

Explanation	Screenshot
5. Choose the <i>Order Management</i> tab to select it.	
6. To open a worklist of freight orders, choose the associated app.	
7. You can run automatic carrier selection by selecting the freight orders, for which you need to select a carrier in the worklist. Choose „Carrier Selection“ from the Subcontracting dropdown menu.	

Explanation

8. You can manually assign carriers by selecting one or several freight orders first.

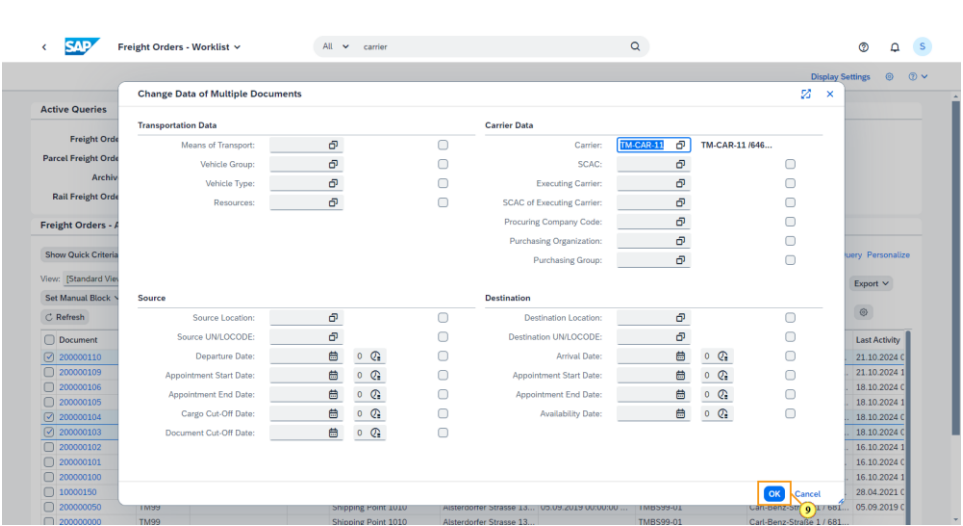

Choose *Mass Change* from the Mass Actions dropdown menu to continue.

Screenshot

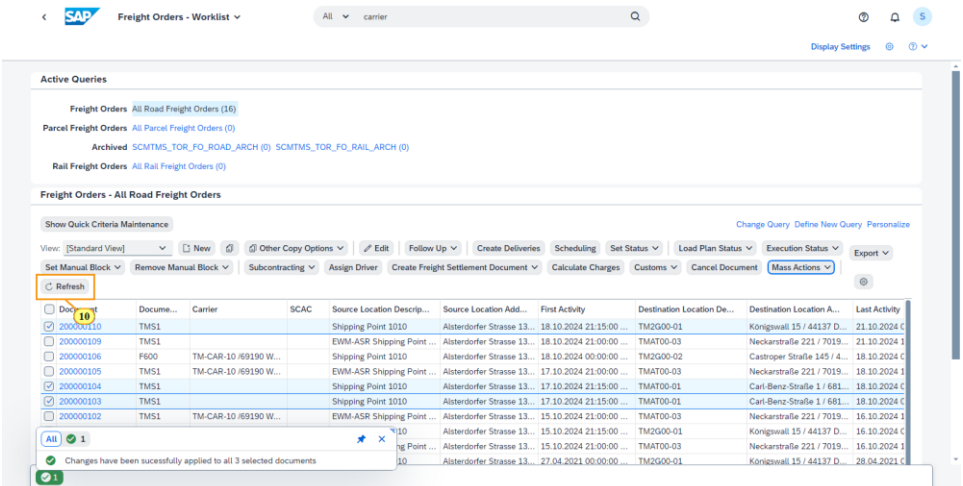

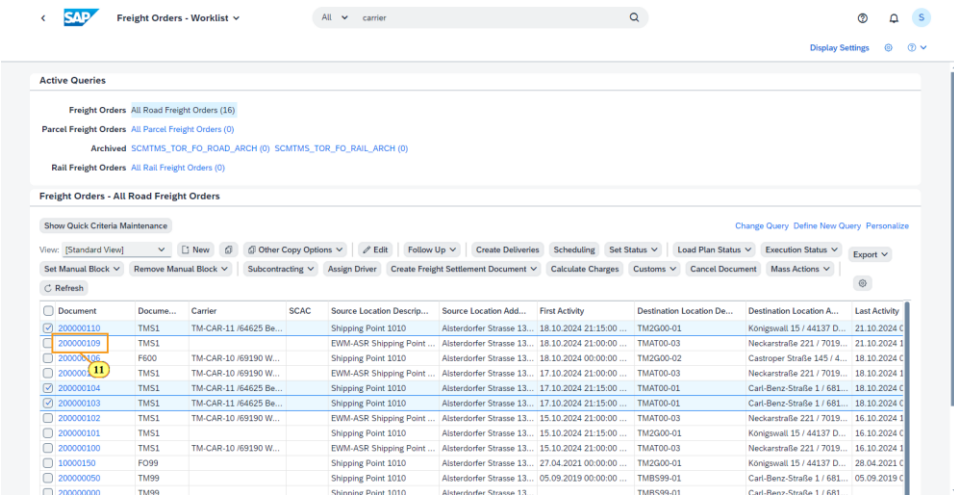

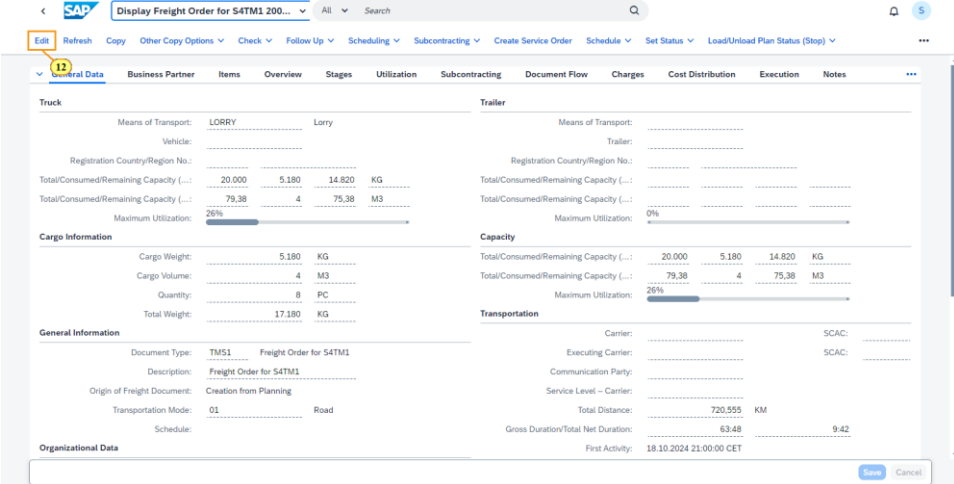

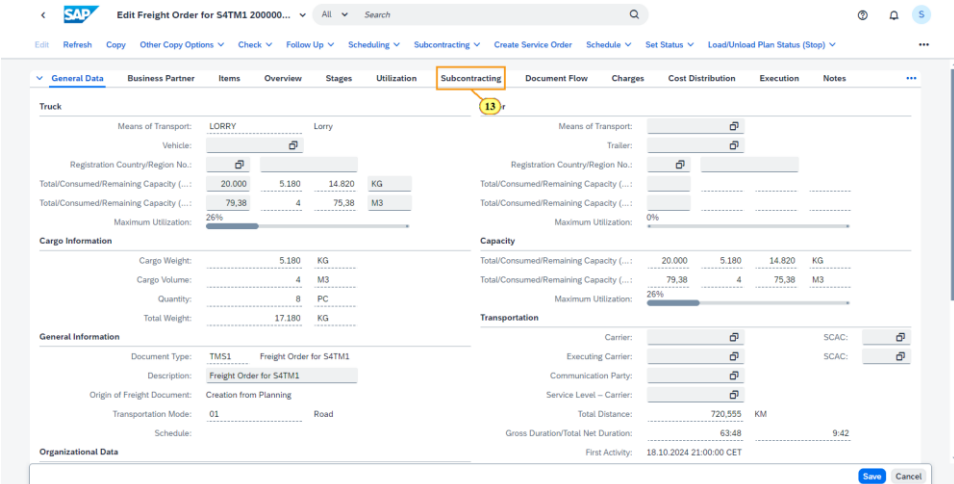

9. You can enter the information you want to mass change in the pop-up window. The carrier **TM-CAR-11** was already entered for your convenience.

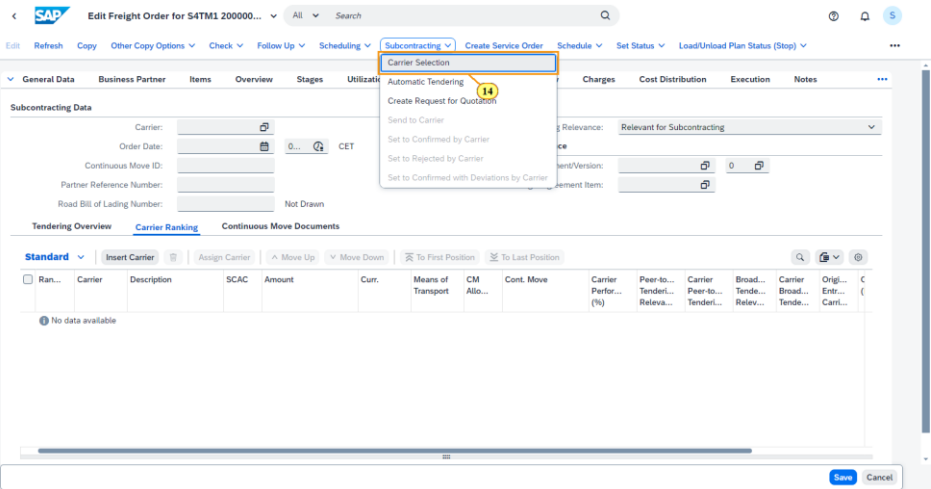

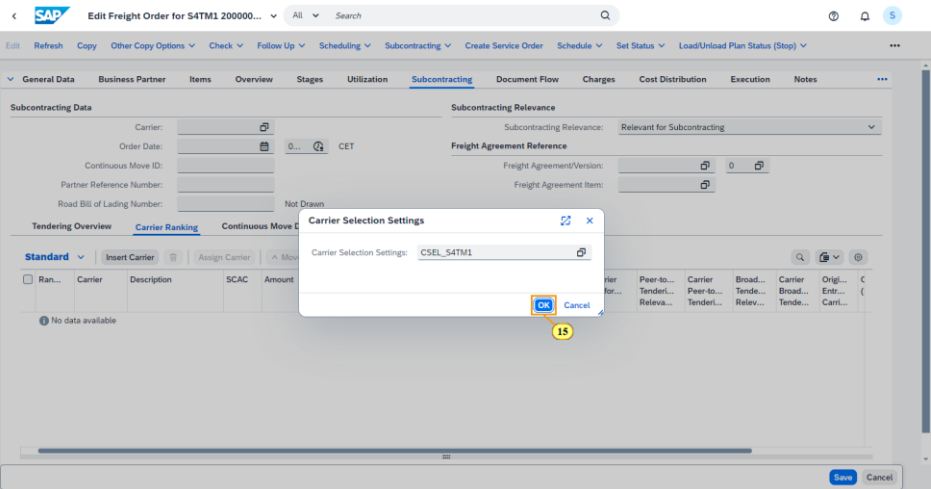

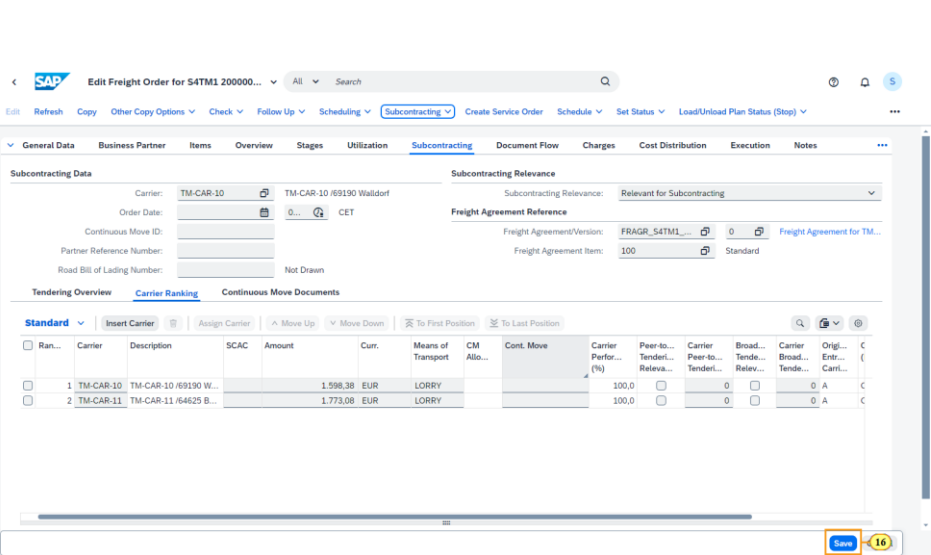

Choose *OK* to assign carrier **TM-CAR-11** to the selected freight orders.

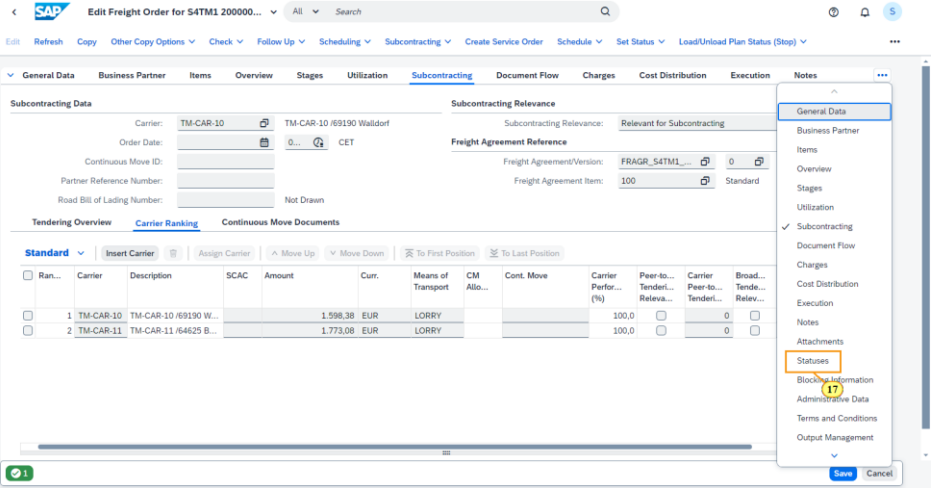

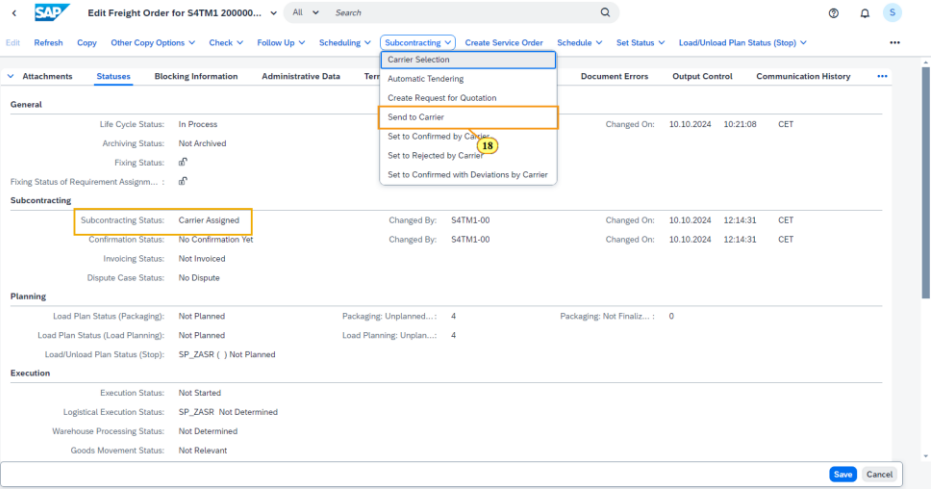

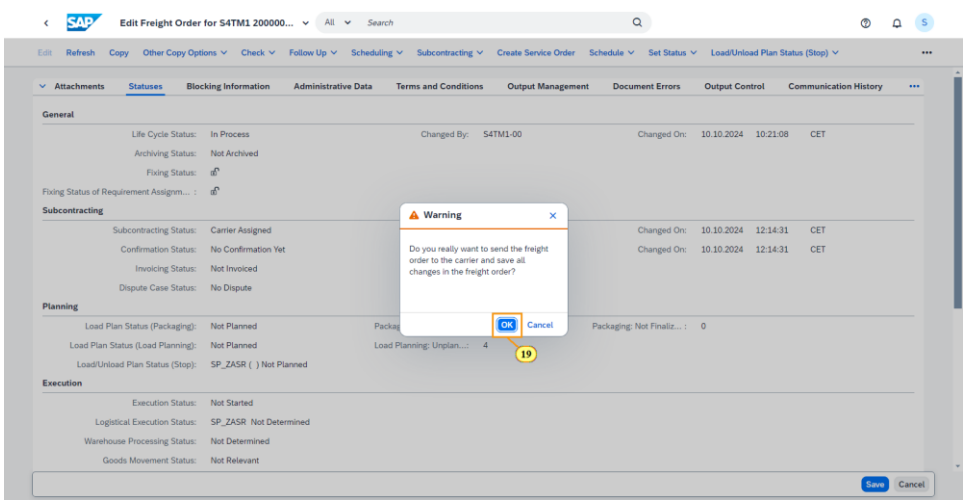

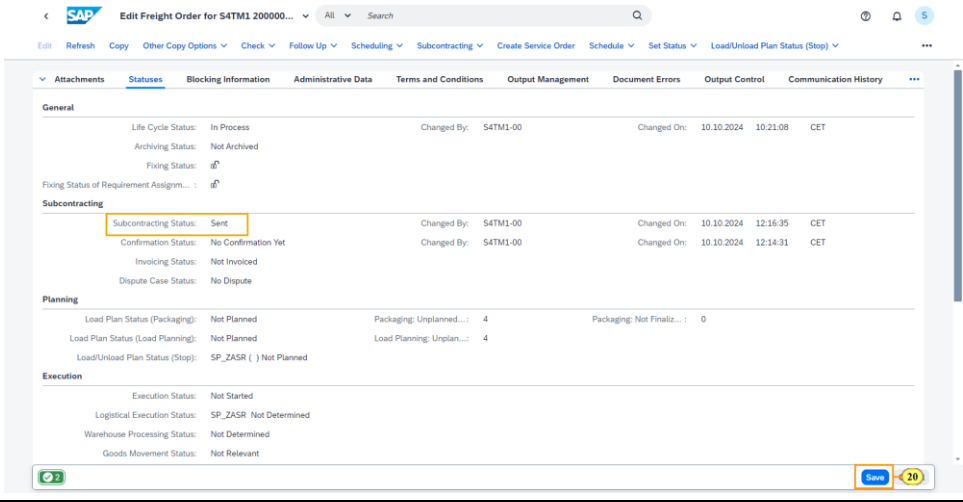

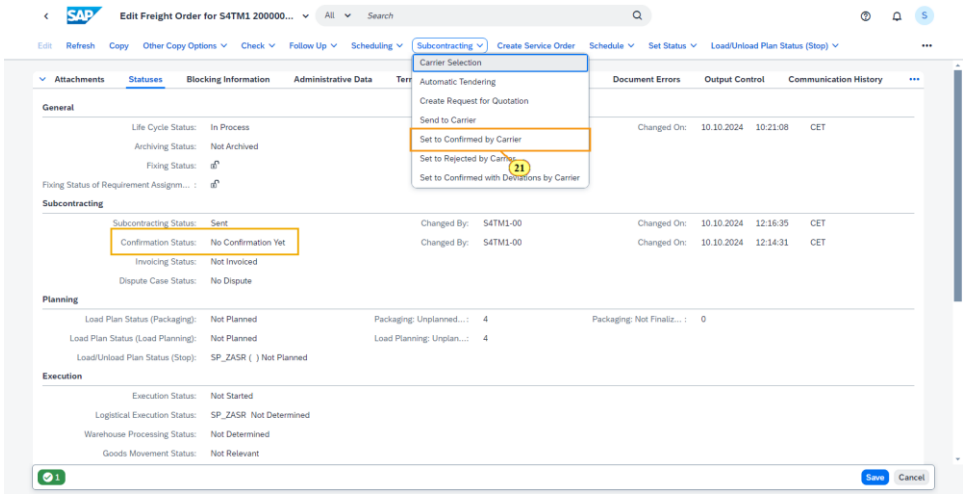

10. Choose *Refresh* to make the successful assignment visible in the Carrier column.

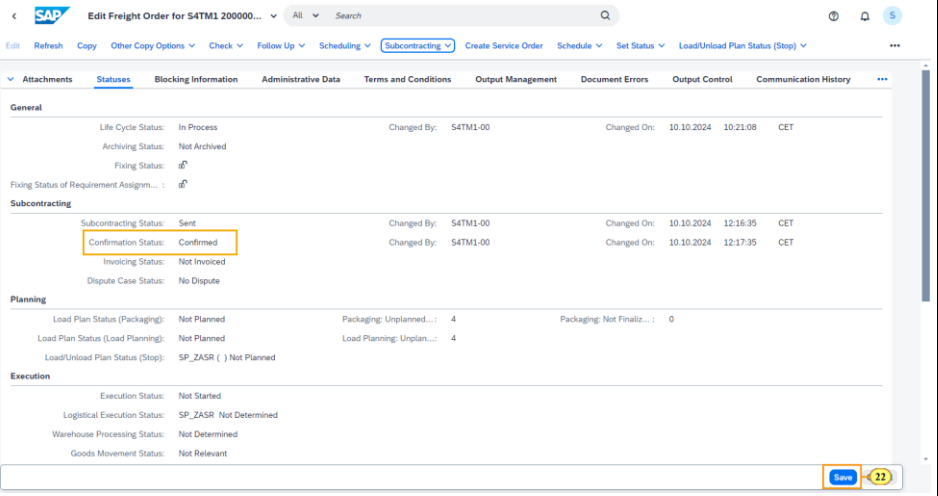

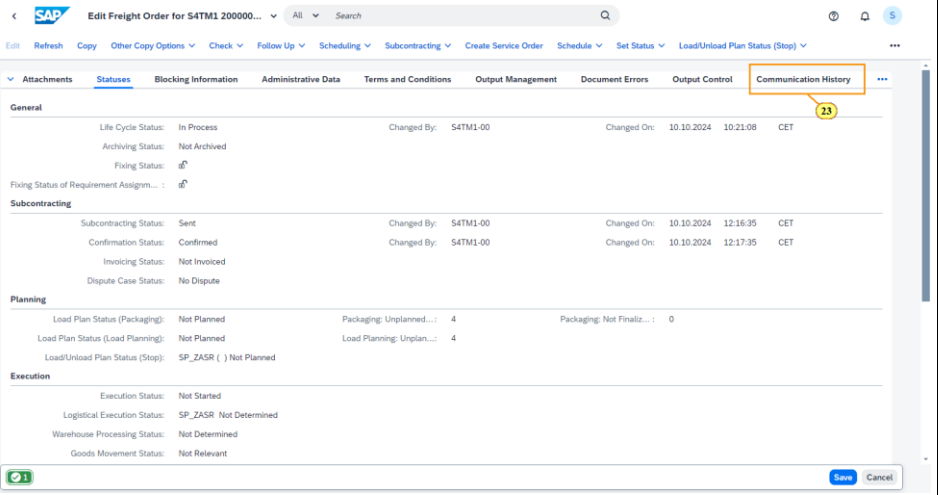

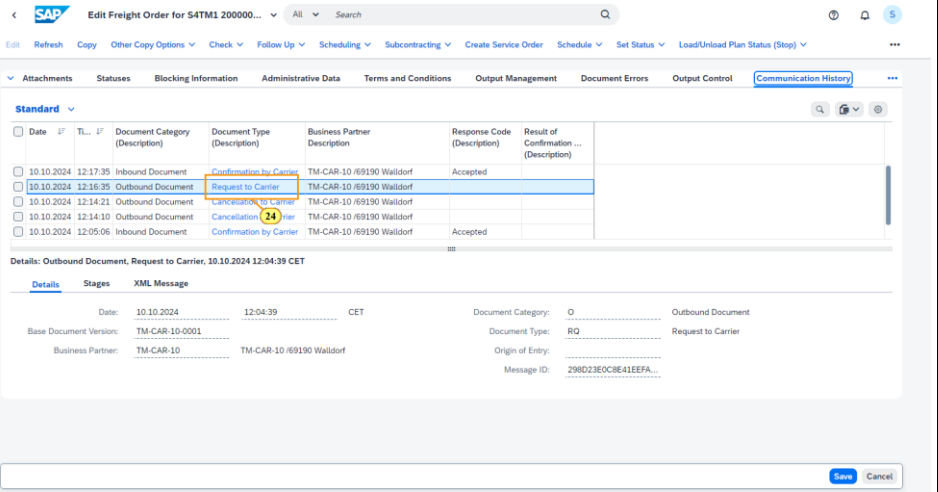

Explanation	Screenshot
11. Choose freight order 20000109 to open it.	
12. Choose <i>Edit</i> to continue.	
13. Navigate to the <i>Subcontracting</i> tab of the freight order.	

Explanation	Screenshot
14. The Carrier Ranking is empty. Choose <i>Carrier Selection</i> from the Subcontracting dropdown menu to create a carrier ranking and select a carrier for this freight order.	
15. You want to execute carrier selection based on the carrier selection settings CSEL_S4TM1 that you have reviewed before. To continue, confirm the pop-up with OK.	
16. The carrier ranking has been established, and two carriers are eligible. The estimated freight charges are as follows: - Carrier TM-CAR-10: €1,598.38 - Carrier TM-CAR-11: €1,773.08 As a result, carrier TM-CAR-10 is ranked

first and has been selected automatically. Choose Save to continue.	
17. Next, navigate to the <i>Statuses</i> tab.	
18. The subcontracting status is Carrier Assigned . Select <i>Send to Carrier</i> from the Subcontracting dropdown menu.	

Explanation	Screenshot
19. Confirm the Warning message by choosing OK.	
20. The subcontracting status has been changed to Sent. To continue, choose Save.	
21. The confirmation status is No Confirmation Yet . You receive a confirmation from the carrier via email. Select <i>Set to Confirmed by Carrier</i> from the Subcontracting dropdown menu.	

Explanation	Screenshot
22. The confirmation status has been changed to Confirmed. To continue, choose Save.	
23. Choose the Communication History tab to continue.	
24. Choose Request to Carrier to review the message sent to the carrier.	

Explanation	Screenshot
 A separate browser window will open to show the XML message sent to the carrier. This will conclude this demonstration. Choose Next to continue.	 <pre> 014012345120103WX010001200000109112210548600-1381114100001 This XML file does not appear to have any style information associated with it.
