

Work with Rate Tables

Explanation	Screenshot
1. Choose the <i>Edit Rate Table Definition</i> app to open the corresponding app.	
2. For your convenience the rate table BASE_RATE_00 was already entered. Choose <i>Continue</i> to proceed.	
3. On the General Data tab of the rate table, you define for which charge type the rate table can be used. Choose in the area below the scroll bar to scroll down.	

Explanation	Screenshot																																
4. Additionally, you define the structure of the rate table, which, in this example, consists of two dimensions or scales. The first dimension relates to the destination country of the freight order. The second dimension pertains to the gross weight of the freight being transported. Choose in the area above the scroll bar to scroll up.	 The screenshot shows the 'Edit Rate Table Definition' interface for 'BASE_RATE_00'. The 'Scales' table is visible, with two scales: 511 (Country Template) and 512 (Template for Weight). Scale 511 is selected. The 'Details' section for scale 511 shows the following configuration: <table><thead><tr><th>Field</th><th>Value</th></tr></thead><tbody><tr><td>Scale</td><td>511</td></tr><tr><td>Reference Scale</td><td></td></tr><tr><td>Scale Template</td><td>ZCOUNTRY_TMPL</td></tr><tr><td>Description</td><td>Country Template</td></tr><tr><td>Calculation Base</td><td>DESTLOC_CNTRY</td></tr><tr><td>Calculation Base Description</td><td>Destination Country</td></tr><tr><td>Scale Type</td><td>Same Scale (+)</td></tr><tr><td>Scale Base</td><td>CNTRY</td></tr><tr><td>Scale Base Description</td><td>Country</td></tr><tr><td>Scale Rel. for Crpy Maint.</td><td>☐</td></tr><tr><td>Item with No Value Allowed</td><td>☐</td></tr><tr><td>Minimum Value</td><td>☐</td></tr><tr><td>Maximum Value</td><td>☐</td></tr><tr><td>Rel. 5. Choose the <i>Dates and Values</i> tab to proceed.	 The screenshot shows the 'Edit Rate Table Definition' interface for 'BASE_RATE_00' with the 'Dates and Values' tab selected. The 'Basic Data' section shows the following configuration: <table><thead><tr><th>Field</th><th>Value</th></tr></thead><tbody><tr><td>Rate Table</td><td>BASE_RATE_00</td></tr><tr><td>Description</td><td>Base Rate 54TM3 00</td></tr><tr><td>Charge Usage</td><td>Customer and Service Provider</td></tr><tr><td>Time Zone</td><td>CET</td></tr><tr><td>Rate Validity Split</td><td>☐</td></tr><tr><td>Archiving Status</td><td>Not Archived</td></tr></tbody></table> The 'Reference Details' section shows the 'Rate Table Template' as 'ZBASE_RATE_TMPL'. The 'Organizational Data' section shows a table for 'Organization Name' and 'Party Name'. Explanation	Screenshot																																			
6. On the Dates and Values tab you can define one or multiple validity periods. At the moment only one validity period (01.07.2021 - 31.12.9999) exists. Choose in the area below the scroll bar to scroll down.																																				
7. At the bottom of the Dates and Values tab, you will find a detailed table of rates. This rate table is structured based on two dimensions defined in the Basic Data tab: 1. The destination country and 2. The gross weight Now, how are these rates applied? To find out, choose the <i>Calculation Rules</i> tab.	 <table><thead><tr><th>Destination Country (+)</th><th>Minimum Amount</th><th><= 100 KG (A)</th><th><= 500 KG (A)</th><th><= 1.000 KG (A)</th><th><= 2.500 KG (A)</th><th><= 10.000 KG (A)</th></tr></thead><tbody><tr><td>AT</td><td>120,00</td><td>60,00</td><td>75,00</td><td>110,00</td><td>180,00</td><td>300,00</td></tr><tr><td>CH</td><td>150,00</td><td>70,00</td><td>80,00</td><td>120,00</td><td>200,00</td><td>350,00</td></tr><tr><td>DE</td><td>100,00</td><td>65,00</td><td>70,00</td><td>105,00</td><td>175,00</td><td>290,00</td></tr><tr><td>NL</td><td>80,00</td><td>60,00</td><td>65,00</td><td>100,00</td><td>170,00</td><td>280,00</td></tr></tbody></table>	Destination Country (+)	Minimum Amount	<= 100 KG (A)	<= 500 KG (A)	<= 1.000 KG (A)	<= 2.500 KG (A)	<= 10.000 KG (A)	AT	120,00	60,00	75,00	110,00	180,00	300,00	CH	150,00	70,00	80,00	120,00	200,00	350,00	DE	100,00	65,00	70,00	105,00	175,00	290,00	NL	80,00	60,00	65,00	100,00	170,00	280,00

Explanation

8. The Calculation Rule tab specifies the calculation rule.
The rates on the Rates tab are charged per distance and refer to a distance of 100 km.

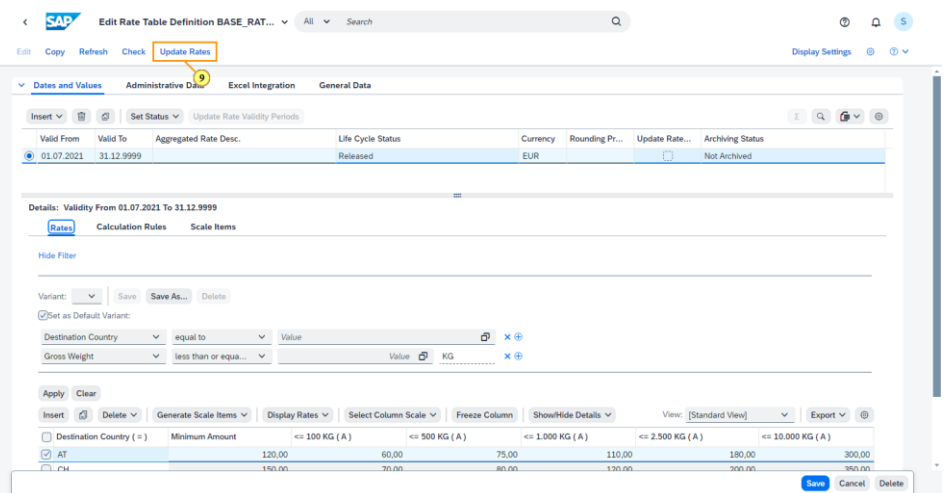

Choose the *Rates* tab to return to the previous screen.

Screenshot

9. If you need to update rates you can use the Update Rates function.

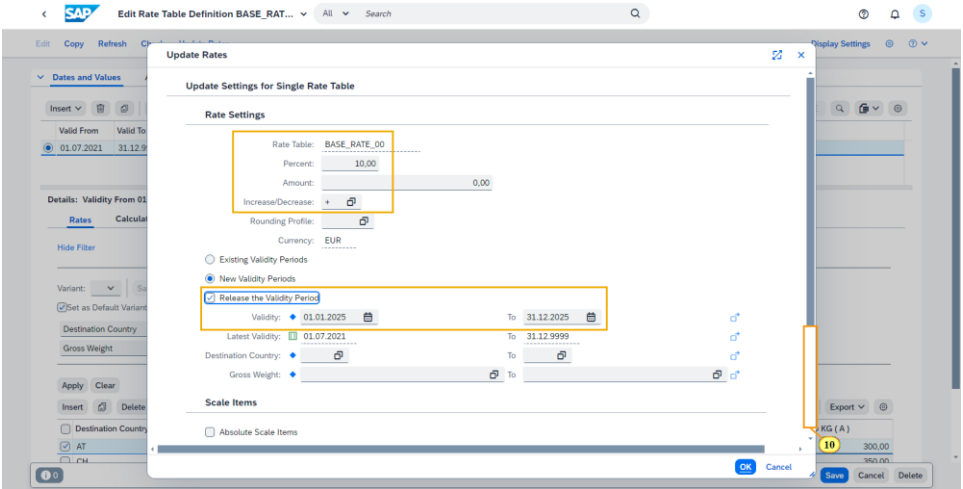

Choose *Update Rates* to proceed.

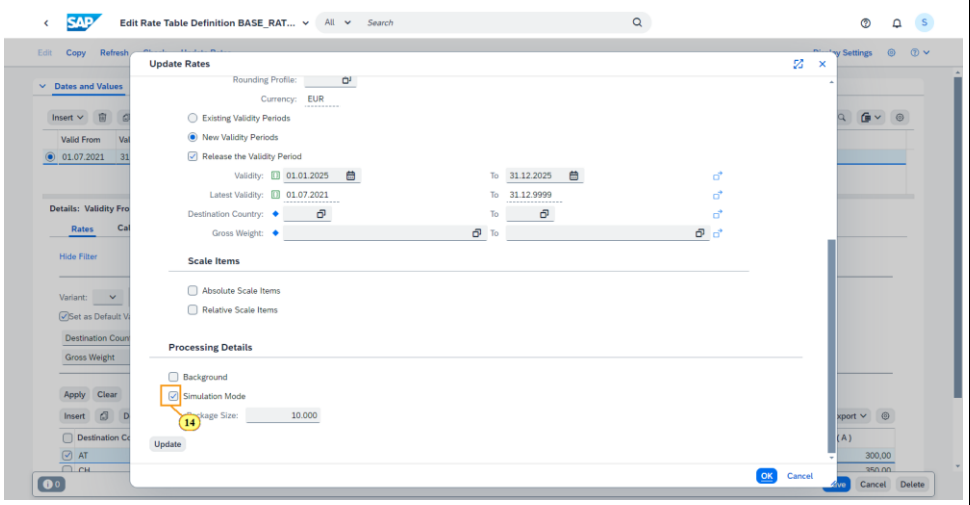

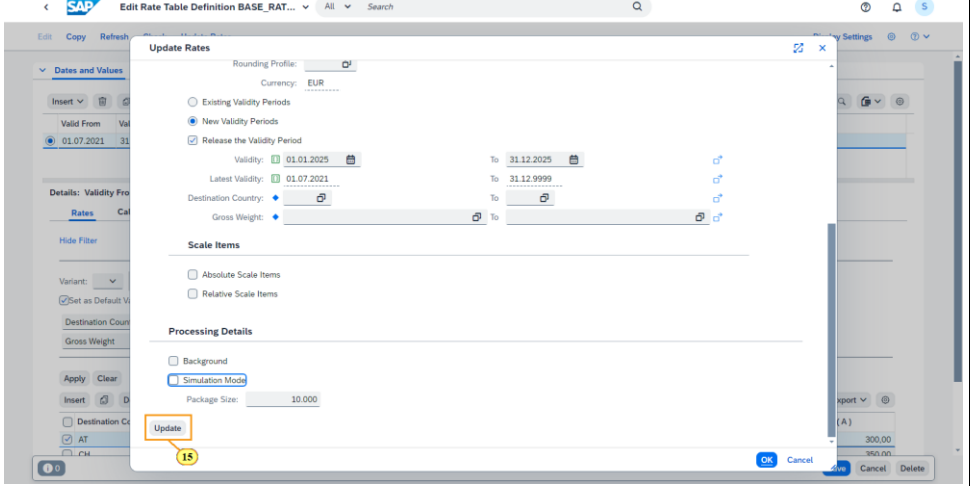

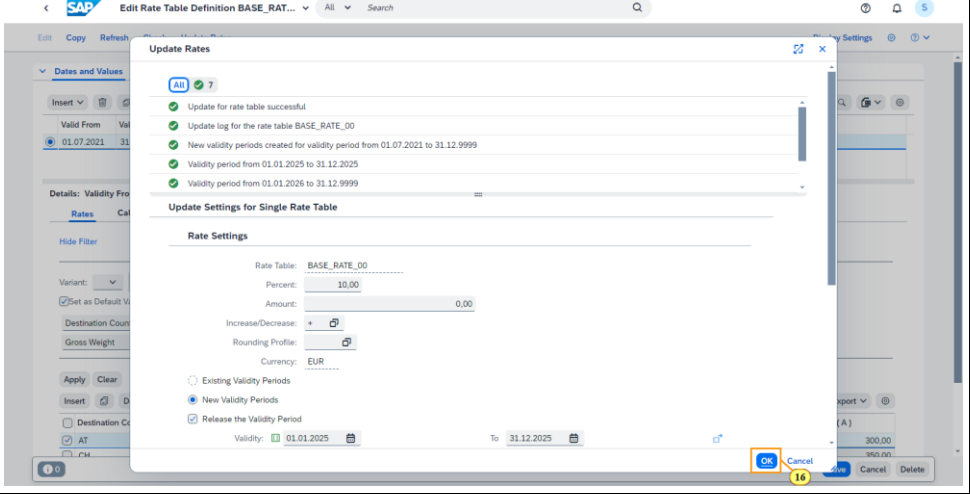

10. In the Update Rates tab, you define, what you want to change.

In this example, you want to increase rates by 10%.
The new rates should be valid in a new validity period for the calendar year 2025 (01.01.2025-31.12.2025).

Choose in the area below the scroll bar

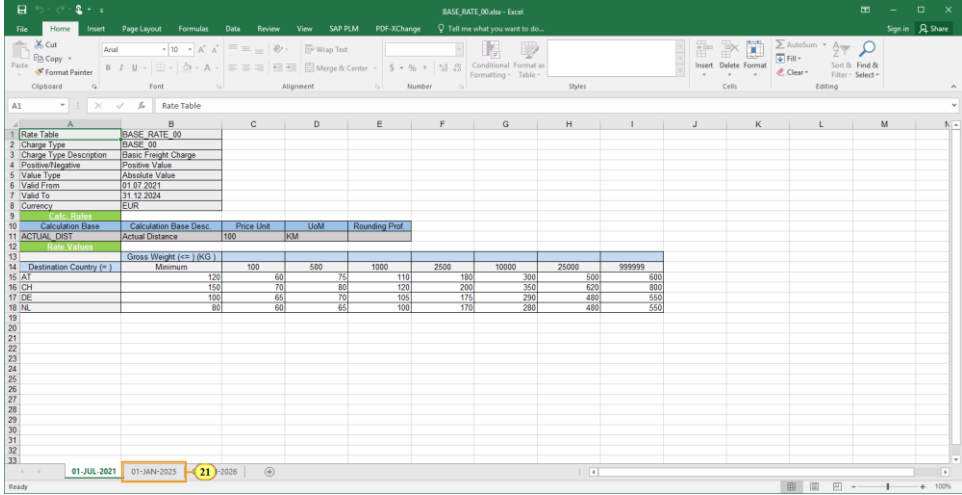

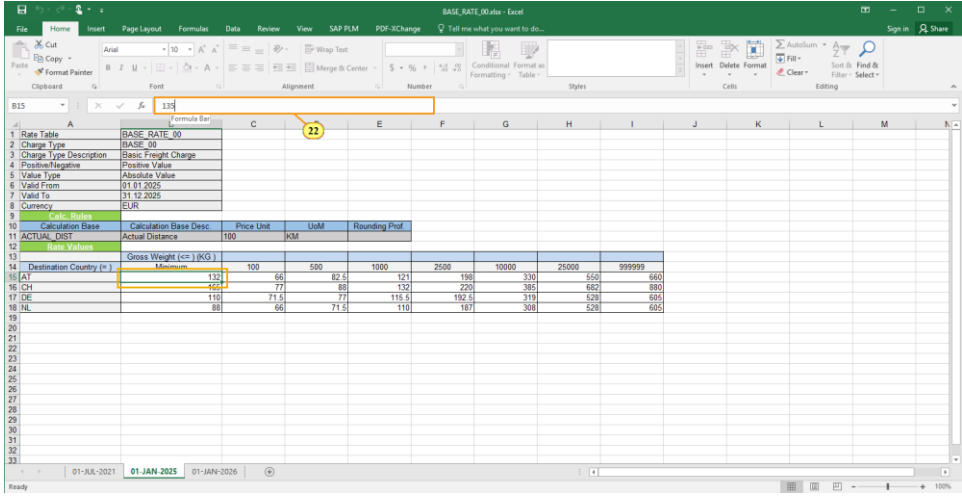

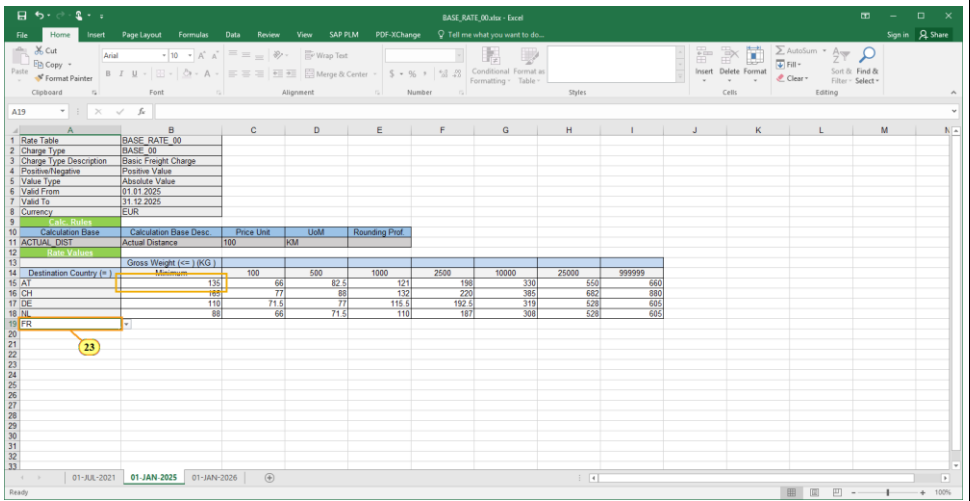

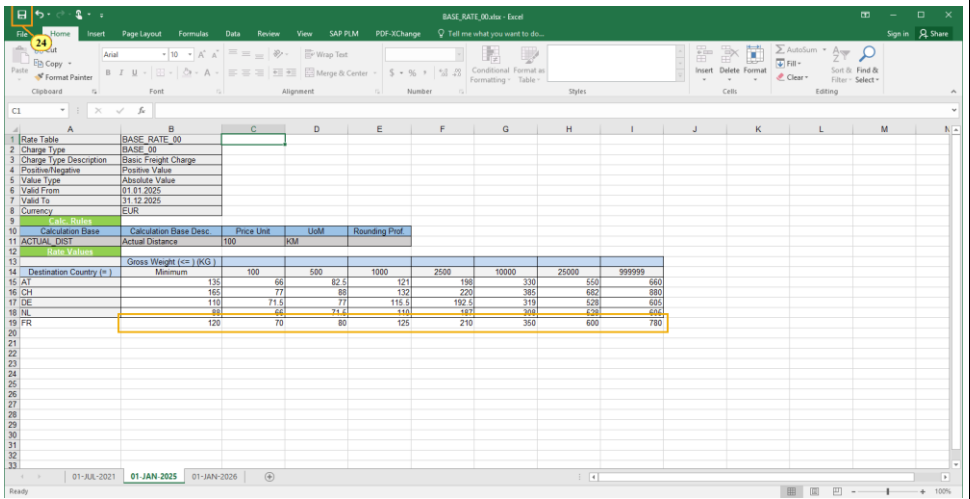

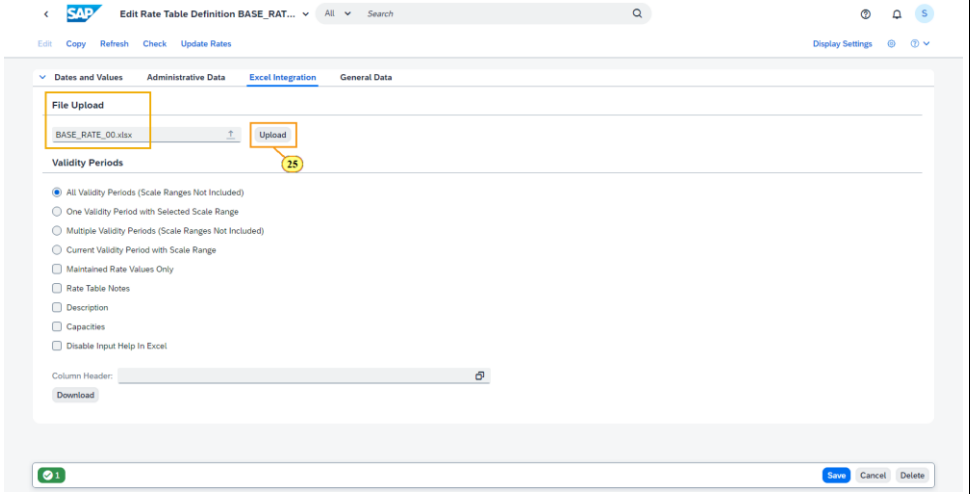

Explanation	Screenshot
to scroll down.	
11. Before you apply your changes, you want to simulate your changes. Choose the <i>checkbox</i> for the simulation mode to proceed.	
12. Choose <i>Update</i> to proceed.	
13. The simulation was successful. All messages are green. Choose in the area below the scroll bar to scroll down.	

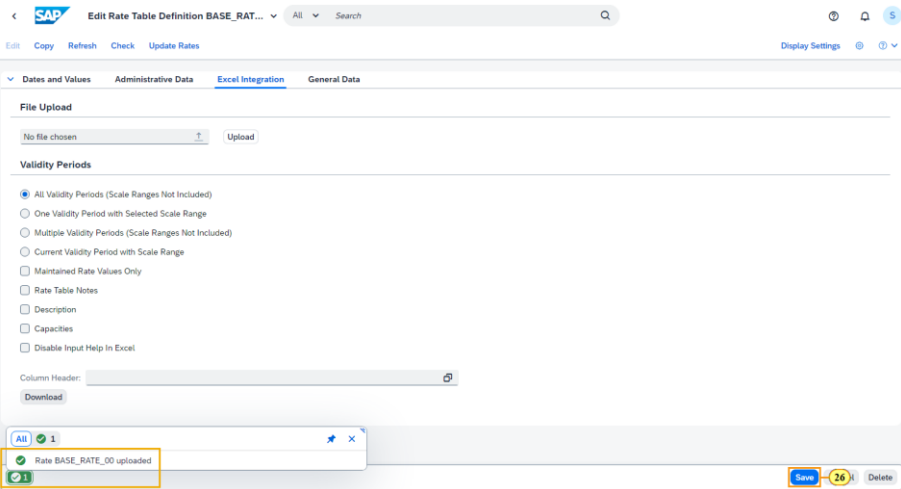

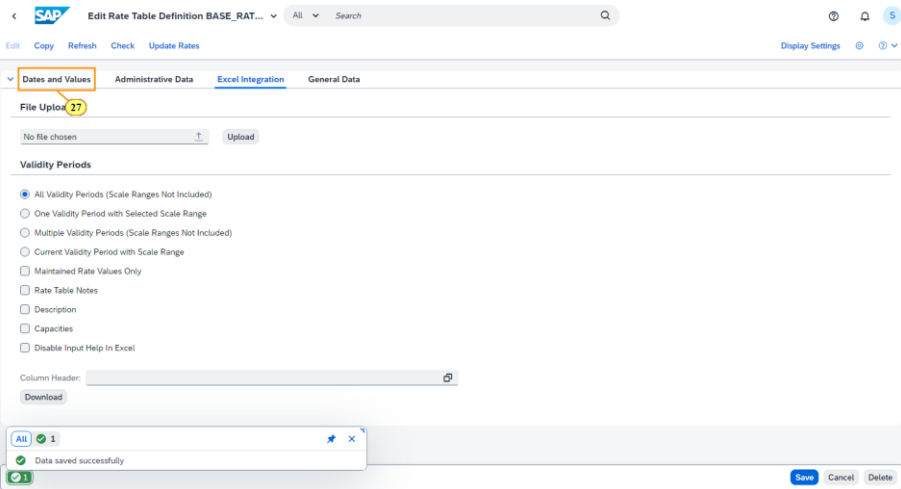

Explanation	Screenshot
14. Uncheck the <i>box</i> for simulation mode to continue.	
15. Choose <i>Update</i> to proceed.	
16. Choose <i>OK</i> .	

Explanation	Screenshot																																														
17. The initial validity period has been divided into three separate validity periods: 01.01.2026 - 31.12.9999 (using the old rates) 01.01.2025 - 31.12.2025 (using the new rates) 01.07.2021 - 31.12.2024 (using the old rates) Note, that the first validity period is currently selected, and the first two rates shown for destination country AT are 120 EUR and 60 EUR. Please select the <i>radio button</i> for the second validity period to check the new rates.	The screenshot shows the SAP 'Edit Rate Table Definition' interface. The 'Dates and Values' tab is active, displaying a table of validity periods. The first period (01.01.2026 - 31.12.9999) is selected with a radio button. Below this, the 'Rates' section shows a table of rates for destination country 'AT'. The first two rates are highlighted: 120.00 for the first weight range and 60.00 for the second weight range. The interface includes various controls like 'Set Status', 'Update Rate', and 'Archiving Status'. <table><tr><th>Valid From</th><th>Valid To</th><th>Aggregated Rate Desc.</th><th>Life Cycle Status</th><th>Currency</th><th>Rounding Pr...</th><th>Update Rate...</th><th>Archiving Status</th></tr><tr><td>01.01.2026</td><td>31.12.9999</td><td></td><td>Released</td><td>EUR</td><td></td><td>☒</td><td>Not Archived</td></tr><tr><td>01.01.2025</td><td>31.12.2025</td><td></td><td>Released</td><td>EUR</td><td></td><td>☐</td><td>Not Archived</td></tr><tr><td>01.07.2021</td><td>31.12.2024</td><td></td><td>Released</td><td>EUR</td><td></td><td>☐</td><td>Not Archived</td></tr></table> <table><tr><th>Destination Country</th><th>Minimum Amount</th><th><= 100 KG (A)</th><th><= 500 KG (A)</th><th><= 1,000 KG (A)</th><th><= 2,500 KG (A)</th><th><= 10,000 KG (A)</th></tr><tr><td>AT</td><td></td><td>120.00</td><td>60.00</td><td>75.00</td><td>110.00</td><td>180.00</td></tr></table>	Valid From	Valid To	Aggregated Rate Desc. Explanation	Screenshot
18. The new rates are 10% higher as per your update request. The first two rates for destination country AT are now 132 EUR and 66 EUR. You are happy with the result and choose Save to proceed.	
19. In the following, rate changes are applied using the MS Excel integration. Choose the <i>Excel Integration</i> tab to proceed.	
20. Choose <i>Download</i> to download the current rate table for all validity periods.	

Explanation	Screenshot
21. The downloaded MS Excel sheet is protected. This means you can change the values, but you should not alter the structure of the sheet. The workbook contains three sheets, each corresponding to a different validity period. To proceed, select the tab labeled with the new rates' validity period (effective <i>January 1, 2025</i>).	
22. For the cell highlighted, type the value 135 and confirm your entry by pressing the Enter key.	

Explanation	Screenshot
23. In addition, new rates for France should be entered. Enter FR in the box. Note, that a value list of existing country code keys of SAP is checked/a dropdown list is offered! Confirm your entry by pressing the Enter key.	
24. For your convenience, several rates for France have already been entered. Choose Save to proceed.	
25. Once you return to the Rate Table Definition maintenance screen, you need to enter the local file to allow a correct update. Choose <i>Upload</i> to proceed.	

Explanation	Screenshot
26. Choose Save.	
27. Choose the <i>Dates and Values</i> tab to check the result of the upload.	
 The updated values are now visible in the rate table. The minimum amount for country AT has been changed to 135 EUR and the rates for country FR have been added. This concludes this simulation.
